BROAD WELCOME FOR PLANNED WALK-IN CENTRES

PRIME MINISTER Tony Blair’s plans for a series of walk-in health centres in shopping precincts have been welcomed by the RCN.

Nursing Standard. 13, 31, 7-7. doi: 10.7748/ns.13.31.7.s17
NGC 4647 is a spiral galaxy estimated to be around 63 million light-years away in the constellation of Virgo. It was discovered by astronomer William Herschel on March 15, 1784. NGC 4647 is listed along with Messier 60 as being part of a pair of galaxies called Arp 116; their designation in Halton Arp’s Atlas of Peculiar Galaxies. The galaxy is located on the outskirts of the Virgo Cluster.
